

Exwick Heights Remote Learning Strategy

At Exwick Heights Primary, whilst developing our personalised approach to remote learning, we have carefully considered a number of different factors. Our main intentions are to ensure that our children's well-being and academic education continues to be positively promoted, regardless of whether they are able to attend school or not.

In order to achieve this, we have built upon all that we learnt from our previous remote learning experiences, while also accessing support and expertise as appropriate. We have carefully considered how this would work best for all members of our school community, including our pupils, parents/carers and teachers.

Our final strategy now reflects this: it is both purposeful and personalised for us. It will enable all individual children to seamlessly access their learning remotely and be challenged and supported at an appropriate level; it will support all parents and carers with their children's learning; it will provide all teachers with a clear understanding of their pupil's attainment and progress across all subjects.
