

Choose the activities that you wish to complete. How many can you tick off during the week?!

Remember, you can email photographs or observations of your child's Home Learning to:

y2homelearning@exwickheights.devon.sch.uk

<p>What other interesting facts can you find out about the Victorians?!</p> 	<p>Find as many arrays as you can out and about during the week. Can you write multiplication and division facts for each one?'</p> 	<p>Continue with our PSHE work on dreams and goals by learning or continuing to practice a new skill – like tying your shoe laces or buttering toast!</p> 	<p>Enjoy baking some cakes or biscuits. Share them with your family and friends.</p> 
<p>Go for a walk out in the fresh air and look for some 'signs of Spring'.</p> 	<p>Read a book somewhere different or interesting!</p> 	<p>After half term we will be looking at poetry. Find some children's poems online or get a book from the library and share with friends and family. Perhaps you could perform one and ask your adult to video it... or bring it in and read it to us after half term.</p>	<p>Take your favourite toy on an adventure! Take photographs of them and make a little diary to record the things that they have been up to!</p> 
<p>Keep going with your SPARX, Spelling Shed and Sumdog activities.</p> 	<p>Help to plan and cook dinner for the people you live with.</p> 	<p>Enjoy playing board games and / or card games with friends and family.</p> 	<p>Do something kind every day to make someone else smile</p> 
<p>Help your adults with the cleaning at home, just like you did at Powderham Castle! Will you dust with a cloth or a feather duster?! You could have a go at hoovering too, as we don't use carpet bea more!</p> 	<p>Ask three older family members to choose their favourite song or piece of music. Listen to them all, plus your own current favourite. Which do you like best and why?</p> 	<p>Design a 'circuit'-style workout for your family, ideally out in the fresh air. Remember to include activities that get your heartbeat going and that work different muscle groups.</p> 	<p>Keep rehearsing your number bonds to 10, 20 and 100.</p>
